EXPERIENCE

Data Science & Analytics Intern – *Tamizhan Skills (Remote)* Jun 2025 – Jul 2025

- Executed end-to-end data pipeline — ingestion, cleaning, and EDA — across **5+** datasets using Pandas, Matplotlib, and Seaborn.
- Built **3** interactive Plotly dashboards surfacing complex trends, directly reducing ad-hoc stakeholder report requests.
- Reduced dataset inconsistencies by **~25%** through systematic outlier detection and imputation, improving downstream model reliability.
- Accelerated data manipulation tasks by **~40%** by replacing iterative loops with vectorised NumPy operations.

Machine Learning Intern – *TechKriti – IIT Kanpur* Jan 2025 – Feb 2025

- Implemented **2** supervised ML models (NLP classification + regression) — covering training, evaluation, and iteration.
- Reduced model training time by **~20%** via feature selection and Scikit-learn preprocessing optimisations.
- Recognised as a top-**3** intern submission at the TechKriti internal showcase; presented results to IIT Kanpur faculty panel.

AWS APAC Solutions Architecture – *Forage Virtual Program* Jan 2025

- Designed a scalable hosting architecture using AWS Elastic Beanstalk in response to a simulated client performance brief.
- Produced a written technical recommendation that translated infrastructure choices into clear non-technical business language.

COURSEWORK / SKILLS

Languages	Python · C / C++ (OOPS & Data Structures)
ML / AI	Linear Regression · Random Forest · Feature Engineering · NLP Basics · Predictive Modelling
Libraries	NumPy · Pandas · Scikit-learn · Matplotlib · Seaborn · Plotly
Tools	Jupyter Notebook · Git · VS Code · Tkinter
Soft Skills	Data Storytelling · Stakeholder Communication · Analytical Problem-Solving · Attention to Detail
Subjects	Machine Learning · Computer Vision · Data Structures · OOP · Operating System

EDUCATION

B.Tech – Computer Science Engineering (AI) – *CSJM University (UIET), Kanpur* Aug 2024 – Jun 2028

- CGPA: **8.52** / 10.0

PROJECTS

Student Performance Analytics Dashboard [GitHub](#) 2025

- Merged **3** data sources (grades, attendance, login activity) into a unified pipeline feeding a faculty-facing at-risk dashboard.

- Trained a Random Forest classifier achieving **87%** accuracy in identifying low-performing students before end-of-term.
- Delivered per-student improvement suggestions from data insights — adopted by faculty for proactive academic intervention.

Tech Stack: *Python, Pandas, Random Forest, Scikit-learn, Matplotlib, Jupyter Notebook*

Future Sales Forecasting Model [GitHub](#)

2025

- Built a Linear Regression pipeline on **12+** months of historical records, producing monthly forecasts with MAE under 5%.
- Identified **2** growth drivers and 1 seasonal risk pattern from EDA, directly informing quarterly planning decisions.

Tech Stack: *Python, Linear Regression, Scikit-learn, Matplotlib, Jupyter Notebook*

AI-Powered Expense Tracker & Predictor [GitHub](#)

2025

- Shipped a full desktop app (Tkinter GUI + ML backend) in **3** weeks with 3-month forward spending forecasts.
- Integrated budget-alert logic flagging overspends categories — test users reported a projected **15%** reduction in discretionary spend.

Tech Stack: *Python, Tkinter, Predictive Modelling, Pandas, NumPy*

CERTIFICATIONS & ACHIEVEMENTS

- Machine Learning Certification — TechKriti, IIT Kanpur (Feb 2025)
- Data Science & Analytics Certification — Tamizhan Skills (Jul 2025)
- Machine Learning with Python — FreeCodeCamp (Dec 2025)
- GPA: 8.52 / 10.0 — consistently in the top 15% of B.Tech CSE (AI) at UIET Kanpur
- National Service Scheme (NSS) — active volunteer contributor
